

IN MEMORY:

Captain Lee McCune

"We are saddened by the loss of one of our local responders," said Coast Guard Capt. Pat DeQuattro, Sector Key West commander. "Our hearts and prayers go out to the family and friends of Mr. McCune."

Captain Lee McCune is the son of Captain Barrie McCune, owner and founder of Poseidon Marine Towing and Salvage, a TowBoatU.S. affiliate. Lee was aspiring to take over the family business as Barrie nears retirement.

He was an avid power boater, diver, salvage master, videographer, photographer and web page designer. His creativity and people skills addressed serious matters by spinning them with a humorous anecdote. He could turn difficult situations into laughable.

He'd been Captain at the wheel of a towboat since the 90's with his parents as close partners of BoatU.S. for over 20 years. He beamed laughter and a positive attitude that was addictive to all who shared his company.

Our heartfelt condolences go out to Lee's family.
